

# RAISE THE BAR

OUT for Work's Career Center Certification Program (CCCP) is entering its third year. The ground-breaking initiative benchmarks the level of tools and resources that career centers on campus provide LGBTQ students.

The CCCP provides academic institutions and students with an evaluation of the support available to LGBTQ students facing employment and workplace challenges.

We encourage you to certify today to receive the benefits of this program and show your commitment to serve the needs of all of your students.

## Certification is FREE for all newly certifying career centers
